QUALITY COMMITTEE**

A regular meeting of the Quality Committee of the North Brevard County Hospital District operating Parrish Medical Center was held on February 5, 2018 in the Executive Conference Room. The following members were present.

Herman A. Cole, Jr., Chairman  
Peggy Crooks  
Gregory Cuculino M.D.  
Billie Fitzgerald (12:16 p.m.)  
Elizabeth Galfo, M.D.  
Robert L. Jordan, Jr., C.M.,

Member(s) Absent:

Patricia Alexander, M.D. (excused)  
Kenneth McElynn, M.D. (excused)  
Maureen Rupe (excused)

**CALL TO ORDER**

Mr. Cole called the meeting to order at 12:07 p.m.

**REVIEW AND APPROVAL OF MINUTES**

Discussion ensued and the following motion was made by Mr. Jordan, seconded by Dr. Galfo and approved (9 ayes, 0 nays, 0 abstentions). Mrs. Fitzgerald, Mr. Noffel & Dr. Shah were not present when the vote was taken.

***ACTION TAKEN: MOTION TO APPROVE THE DECEMBER 4, 2017 MEETING MINUTES, AS PRESENTED.***

**PUBLIC COMMENTS**

None

### **VISION STATEMENT**

Mr. Loftin summarized the committee's vision statement.

### **QUALITY DASHBOARD REVIEW**

Mr. Loftin reviewed the Value Dashboard included in the agenda packet and discussed each indicator score, with an emphasis on readmission data, as it relates to clinical quality and cost. Dr. Tronetti indicated she would like to be involved in the readmission initiative. Copies of the PowerPoint slides presented are appended to the file copy of these minutes.

### **ORO 2.0**

Mr. Loftin indicated the ORO 2.0 information was entered into the system, however, it prompted additional questions. The Committee proceeded to review prior answers and addressed the new questions.

### **CITY LIAISON**

Mr. Scott Larese handed out the latest edition of Titusville Talking Points, and addressed questions from the committee.

### **OPIOID FOCUS**

Dr. Carmona highlighted points from a presentation he recently attended at the Brevard County Medical Society regarding Opioid statistics. Mr. Loftin noted the Education Committee would also hear a presentation later in the afternoon regarding Opioid marketing. Copies of the PowerPoint slides presented are appended to the file copy of these minutes.

### **OTHER**

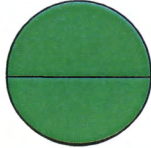

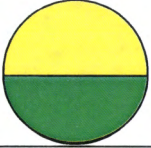

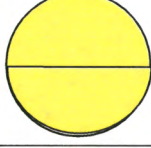

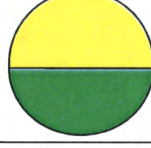

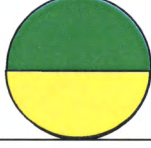

There was no other business brought before the committee.

### **ADJOURNMENT**

There being no further business to discuss, the meeting adjourned at 1:32 p.m.

# Opioid Crisis in the Community we serve

# The Kiplinger Letter

FORECASTS FOR EXECUTIVES AND INVESTORS

1100 13th Street NW, Washington, DC 20005 • [kiplinger.com](http://kiplinger.com) • Vol. 95, No. 13

Dear Client:

Washington, March 30, 2018

The opioid crisis has grown even more dire since we wrote you about it last autumn. More people are dying of overdoses. New, synthetic opioid drugs are more potent than prescription pills or heroin. Addiction poses an even bigger worry for businesses that are already struggling to find enough workers.

## DRUG ABUSE

Most employers are alert to the problem. But too many are still unprepared for it.

One survey says that 70% of firms have felt some effect of Rx drug abuse on their workforce...absenteeism, impaired performance, addicted family members, etc. But 80% don't have a drug-free workplace policy in place.

The financial costs of opioid misuse are steep:

An estimated \$95 billion in 2016 alone, from the hit to employer health plans, lost productivity, etc. Opioid abuse has probably removed 1 million people from the workforce in recent years...a huge drain.

Working-age men are especially vulnerable to getting hooked. It's a particular worry for employers such as builders, manufacturers, trucking firms, etc., which tend to hire a lot of young to middle-aged men.

## ECONOMIC FORECASTS

### GDP growth

3.0% in '18,  
up from 2.3% in '17

### Interest rates

10-year T-notes ending '18 at 3.3%  
as government deficit estimates rise

### Inflation

2.6% at end of '18,  
from 2.1% in '17

### Unemployment

Ending '18 at 3.8%,  
down from 4.1% at end of '17

### Crude oil

Trading from \$60 to \$65  
per barrel in June

### Retail sales

Rising 4.7% in '18, excluding cars  
and gasoline; up from 4.1% in '17

What employers can do to fight the scourge: Set strong drug-free policies.  
That means: The right to search workspaces for drugs. Explicitly forbidding employees to show up high. Banning possession, use or distribution of drugs on the job.  
And, perhaps, setting up drug treatment plans for workers who test positive for opioids.  
Make sure your drug tests check for major opioids, including synthetic ones,  
such as fentanyl and carfentanil. Traditional test panels don't cover many of them.  
Work with health insurers to curb opioid prescriptions. Require enrollees to try nonopioid pain pills before an opioid can be prescribed. Cover physical therapy, chiropractic treatment and other nondrug approaches to relieving pain. Require folks who do get opioids to fill scripts at one pharmacy...no shopping around for extra pills.  
Train supervisors to spot signs of addiction...mood swings, nausea, anxiety...  
And to direct addicted workers to the help they need in order to get sober.  
Above all, educate workers on the dangers and encourage them to seek help.  
Research shows that destigmatizing addiction gets better results than shaming people.

As for government action, there are some promising moves in the works.  
Congress just OK'd \$6 billion in new funding to curb opioid abuse. Likely initiatives include more help for local law enforcement and funding for overdose rescue drugs. Lawmakers also want to give the Food and Drug Admin. more power to crack down on illegal opioids entering the U.S. from abroad and to curb supplies of prescription pills.  
Some states are exploring innovative ideas, too. A N.H. program, for instance, will certify employers as "recovery-friendly workplaces" if they adopt promising policies for helping their workers get clean, so more folks can get back to gainful employment.

## **HB 21 – Controlled Substances. To take effect July 1, 2018**

---

- Requires prescribing practitioners complete a 2 hour training course on safe and effective prescribing of controlled substances prior to license renewal.
- Applies to acute pain. Does not restrict use for:
  - Cancer
  - A terminal condition
  - Palliative care
  - Serious trauma with severity score of 9 or greater
- Provides restrictions for outpatient Rx prescribing for acute pain:
  - Limits opioid Rx for Schedule II controlled substances to no more than 3 days. Can be increased to 7 days if determined to be medically necessary by the provider with proper documentation.
  - *Must co-prescribe an opioid antagonist (i.e. naloxone) when prescribing Schedule II controlled substances for serious traumatic injury.*

- 
- Exempts pain management clinics
  - Requires dispensers to verify patient identity prior to dispensing
  - Rewords the Prescription Drug Monitoring Program (PDMP) including:
    - Schedule V controlled substances must be reported
    - Requires prescribers consult PDMP before prescribing controlled substances
    - Allows sharing of FL PDMP data with other states
  - Increases penalty for a patient or HCP who knowingly obtains or provides a controlled substance that is not medically necessary.
  - Provides appropriations for FY 2018-19 of over \$50,000,000

# RESTORING THE INDIAN RIVER LAGOON

*The City of Titusville's Efforts to Save Our Lagoon*

**City of Titusville**  
*Gateway to Nature & Space*

# RESTORING THE INDIAN RIVER LAGOON

The City of Titusville is fortunate to sit on the banks of one of North America's most biologically diverse estuaries — the internationally renowned Indian River Lagoon (IRL). Not only is the lagoon home to thousands of plant and animal species, it is also a world-class recreational and commercial fishing destination, and an economic driver to the 38 cities and five counties which sit on its 156 miles of shoreline. Every year, the IRL brings \$7.6 Billion to the regional economy, providing for 71,918 lagoon-related jobs, and supporting recreational opportunities for 1.6 million local residents and 7.4 million visitors.

The lagoon is in danger, however, and recent algal “superblooms” are contributing to the loss of 47,000 acres of sea grasses, as well as hundreds of manatees, dolphins, and other wildlife. The decline of the lagoon can potentially endanger the local economy and negatively impact the quality of life for the community. To that end, residents, businesses, and government agencies are seeking solutions to help restore the estuary to a healthy and vibrant condition.

*The City of Titusville has been very successful working on many projects that will help restore our precious Indian River Lagoon. Here is an update on our projects and the associated funding:*

## Osprey Water Reclamation Facility Nutrient Removal Upgrade

**Funding:** \$8,000,000 in grants from Brevard County Save Our Lagoon Fund.

**Project Status:** The projected nutrient removal for this project is 22,988 lbs. of nitrogen per year. To date we have selected a design engineer for the project and have finalized the scope of services for design.

**Project Details:** The reclaimed water currently produced at the facility has nutrients (nitrogen) in excess of what typical lawns and grasses can absorb. This project will improve the removal of nutrients from the reclaimed water by the facility to levels that lawns and grasses can absorb. When lawns are irrigated and especially over irrigated, which is common when using reclaimed water, the nutrients can pass through the soils and into the ground water. This ground water then flows to the Lagoon adding additional nutrients to the system. The additional nutrients can encourage algal blooms which in turn reduce water clarity, reduce available oxygen, and discourage the growth of sea grasses which are essential to a healthy lagoon.

## Septic Systems Conversion to City Sewer

**Funding:** \$660,000 in grants funding from Brevard County Save our Lagoon Fund.

**Project Status:** To date we have identified 18 septic sites that are feasible for conversion to city sewer, and divided them into two main areas. We have secured new continuing engineering consultants to assist with design, permitting, extension, and connection of sewer service to those sites.

**Project Details:** The Save Our Lagoon Project Plan developed by Brevard County recommended conversion of 33 septic systems to sewer for properties located on the Indian River Lagoon. A preliminary engineering study of the 33 septic conversion sites estimated by Brevard County revealed a number have already been converted to sewer and some are not feasible for conversion.

## Draa Field Stormwater Park

**Funding:** \$1,554,825 in grants from the Florida Department of Environmental Protection, St Johns River Water Management District, and Florida State Legislature.

<b>FDEP 319 Grant</b>	<b>\$388,825</b>
<b>SJRWMD Cost Share Grant</b>	<b>\$366,000</b>
<b>FY15-16 General Appropriations Grant</b>	<b>\$800,000</b>
<b>City of Titusville</b>	<b>\$255,000</b>

**Project Status:** Pond completed in 2016; littoral zone restoration planting also completed. Water quality testing occurs on a regular basis, as required by grant funding.

**Project Details:** The Stormwater Pond (completed Sept. 2016) treats 105 acres. The effectiveness of the pond is checked by testing the amount of pollutants in the water as it enters the pond, and then again as it exits the pond. This testing will occur after rainfall events for at least a year after the pond is completed.

## Littoral Zone Vegetation Planting

**Funding:** \$60,000 in grants funding from the Florida Department of Environmental Protection.

**Project Status:** Installation complete, plant monitoring is underway.

**Project Details:** Shoreline plantings provide an important buffer between upland landscapes and waterbodies by taking up excess phosphorus and nitrogen originating from fertilizers, pet waste, and yard debris, as well as other pollutants carried by stormwater runoff.

**Location:** City owned ponds located at Royal Oak Dr & Saunders Pl and the north Brevard Senior Center

### Living Shoreline Plan & Demonstration Site

**Funding:** \$40,600

**Project Status:** Coordinated with UCF to receive grant funding from the Indian River Lagoon National Estuary Program Living Shoreline Plan is complete, unfortunately our demonstration site did not survive hurricane Irma. University of Central Florida and the Marine Resources Council replanted the site on March 10, 2018.

**Project Details:** As part of collaboration between the City of Titusville, the University of Central Florida, the Indian River Lagoon National Estuary Program, and the St. Johns River Water Management District, a living shoreline plan was developed. This plan shows what kind of living shorelines should be implemented in Titusville and how you can install one on your property.

**View the Plan:** [www.titusville.com/Page.asp?NavID=2399](http://www.titusville.com/Page.asp?NavID=2399)

### Living Shoreline Outreach Program

**Funding:** \$12,000 in grant funding from the Indian River Lagoon National Estuary Program.

**Project Status:** Informational Materials were mailed in February 2018 and a workshop was held on 2/15/18.

**Project Details:** Creation, printing and mailing of educational outreach materials. Copies of materials created are located online at [www.titusville.com/Page.asp?NavID=2399](http://www.titusville.com/Page.asp?NavID=2399)

### Nutrient Separating Baffle Boxes

**Funding:** Multiple (see chart next page).

**Project Status:** At the present time, there are six baffle boxes in varying stages of production to be installed at the following locations:

- Main Street Basin • South Street Basin • Sycamore Basin
- St. Teresa Basin • La Paloma Basin • Knox McRae Basin

**Project Details:** Second-generation Nutrient Separating Baffle Boxes are a structural Best Management Practice used for stormwater quality treatment. These devices remove leaves, trash, sand and their associated contents of nitrogen and phosphorus from receiving waters. The 2nd-generation box is designed to capture and store debris in a dry state to minimize nutrient leaching, allowing for easier maintenance. The addition of the nutrient removal media helps further reduce nitrogen and phosphorus levels in the stormwater.

**More Info:** Learn more details of the specific baffle box projects using the chart and map on the next page.

## Area II Stormwater Treatment Trains Main St. & Sycamore Basins

**Funding:** Received \$352,752 in grant funding from the Florida Department of Environmental Protection.

**Project Status:** Sycamore Baffle Box installation complete; Main St. Baffle Box construction is 50% complete. Water quality testing to commence after construction.

## Knox McRae Basin Baffle Box

**Funding:** \$105,000 in grant funding from the Florida State Legislature.

**Project Status:** Construction began October 23, 2017.

## South Street Basin Baffle Box

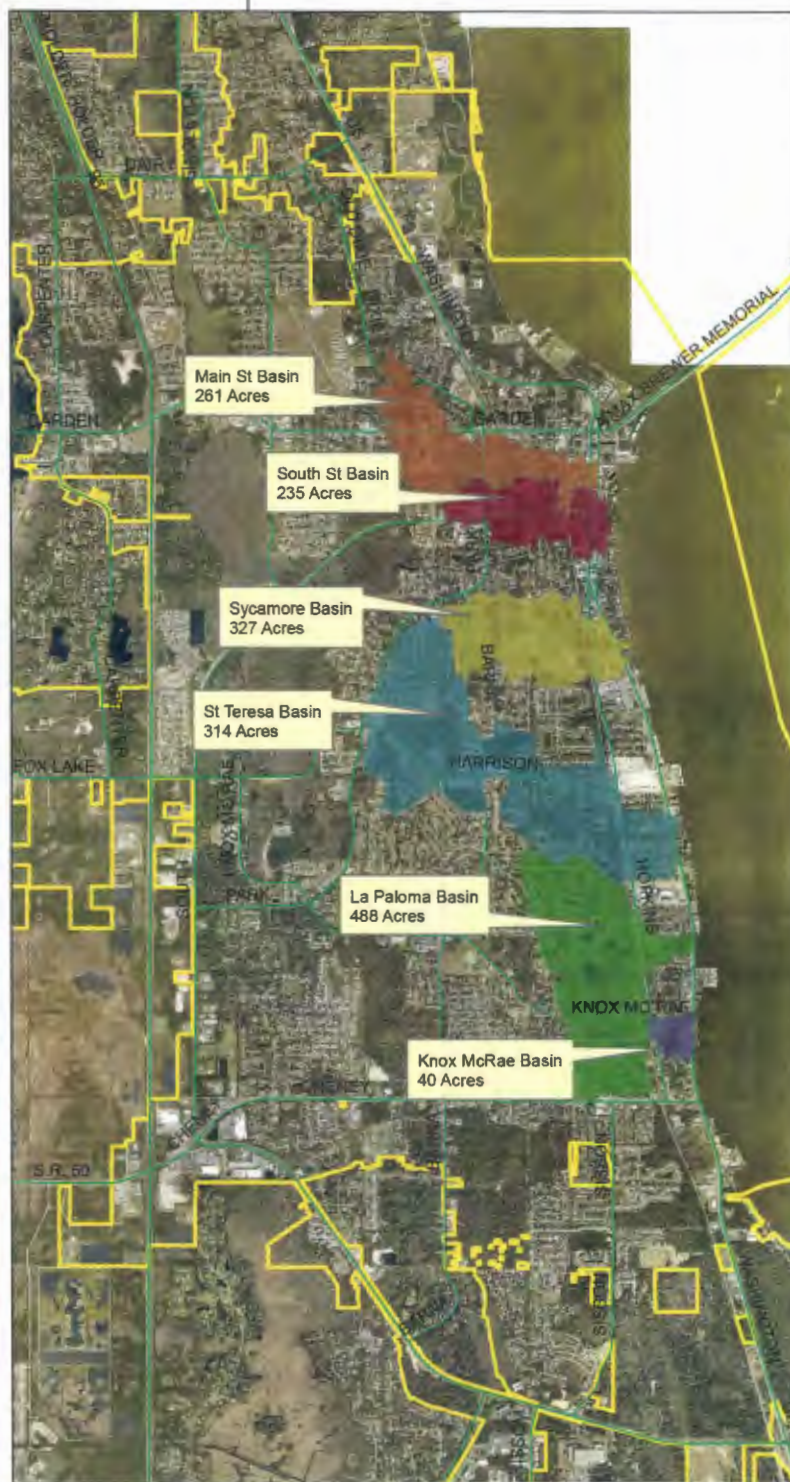

**Funding:** \$110,000 in grant funding from the St Johns River Water Management District, \$240,000 from the State Legislature and \$86,856 from the Brevard County Save our Lagoon Fund.

**Project Status:** In design.

## La Paloma Basin & St. Teresa Basin Baffle Boxes

**Funding:** Received \$160,000 in grant funding from the Florida State Legislature and \$481,096 from the Brevard County Save our Lagoon Fund.

**Project Status:** In design.

Titusville City Council is considering adoption of the Shoreline Protection Ordinance, in order to regulate development along the water's edge and better protect water quality of the Indian River Lagoon, as well as the shoreline and upland structures. This ordinance would accomplish the following:

Amends regulations applicable to bulkheads and seawalls; proposes alternative shoreline stabilization structures; sets forth standards for waterfront setbacks for septic systems and onsite sewage treatment systems; minimizes automobile-related runoff near the water's edge; and sets a limit on the amount of impervious surface allowed within a building setback from the water.

Dr. Tronetti solicited input from committee members on what they would like to see during her tenure as Medical Staff President.

**OMNI AGREEMENT**

Mr. Mikitarian provided an operations update regarding an opportunity with OMNI to provide management services to Parrish Medical Group (PMG).

**HALIFAX AGREEMENT**

Mr. Mikitarian noted the recent Interlocal Agreement signed with Halifax Health. He advised within this agreement, Halifax will manage PMC's IT department and will provide staff. Both facilities will interchange staff to best suit needs.

**ATTORNEY REPORT**

Mr. Boyles noted the settlement agreement with McKesson was finalized last week and we expect funds to be disbursed this week.

He also noted that during the Education Committee, a presentation will be heard from a legal firm involved in a class action suit against pharmaceutical companies regarding Opioid marketing. He cautioned the Board to only listen to the presentation and not take any action until counsel has had a chance to weigh pros and cons.

**OTHER**

Mr. Mikitarian noted that he and members of management recently met with representatives of Indian River Behavioral Health, a psychiatric facility being constructed due north of the hospital. He noted that IRBH has obtained CON as a pediatric facility with intent to convert to adult beds in the future.

# Ransomware Threat and Deterrent Chain

IT Security is based on monitoring attack vectors and having deterrent chains in front of the data that is to be wiped, ransomed, or breached.

**Attack Vector:** Zero Day Ransomware attachment in phishing email

## Legend

Last Deterrent: Network Segmentation  
Last Mitigation: Air Gapped Backup

## Lets Talk about Biomed

Why are they vulnerable?

The devices last longer than the available support for the operating system or the vendor will not patch the systems since they are FDA Class 2/3 devices.

WannaCry, HHS, and the FDA...

Notify customers within 30 days after vulnerability is found.

Patch within 60 days

Manufacturers are not there yet...

# Lets Talk about Biomed

How do we reduce the risk?

## New Devices:

- Do not demo or purchase new devices that have outdated Operating Systems and/or the manufacturer will not allow the device to be patched.
- Updated bid spec to include Halifax Health's IT and Biomed Specifications:

<b>IT SPECS:</b>	
1.	DOES THE SOFTWARE/DEVICE FUNCTION WITHOUT ANY CONNECTIVITY TO THE HALIFAX NETWORK (WIRED, WIRELESS OR INTERNET)?
2.	IF A WIRELESS DEVICE, DOES IT SUPPORT WPA2 ENTERPRISE WIRELESS STANDARD?
3.	WILL HALIFAX DATA BE ENTERED ON A WEB SITE, OR OTHERWISE TRANSMITTED ELECTRONICALLY?
4.	IS THE TECHNOLOGY CURRENT (SUCH AS JAVA, ADOBE, AND ANY OTHERS -NO XP, NO SERVER 2003) AND CAN IT BE PATCHED AND REPLACED AS NEW UPDATES AND VERSIONS ARE RELEASED?
5.	WILL THE SOFTWARE/DEVICE ACCEPT ANTI-VIRUS, ENCRYPTION, PATCHES AND SOFTWARE UPDATES AS PUSHED BY HALIFAX?

# Lets Talk about Biomed

BIOMED SPECS:	
1.	MANUFACTURER SHOULD (OR MUST) FOLLOW FDA'S POST MARKET MANAGEMENT OF CYBERSECURITY IN MEDICAL DEVICES FOR PATCH MANAGEMENT
2.	MANUFACTURER SHOULD MAKE THE SECURITY PATCH AVAILABLE AT NO ADDITIONAL CHARGE WITH COMPLETE INSTRUCTIONS TO HALIFAX AS WELL AS THIRD PARTY SERVICE PROVIDERS WHO ARE MAINTAINING MEDICAL DEVICES ON BEHALF OF HALIFAX HEALTH
3.	PROVIDE MDS2 FORM WITH USER'S MANUAL TO HALIFAX IT SECURITY AS WELL AS CLINICAL ENGINEERING
4.	PROVIDE SYSTEM ARCHITECTURE AND INFRASTRUCTURE WITH DETAILED EXPLANATION OF INTEGRATION WITH INTERNAL/EXTERNAL INTERFACES
5.	PROVIDE CURRENT C.O.T.S OPERATING SYSTEM REVISION AS WELL AS PATHWAY/STRATEGY TO UPGRADE TO NEXT OS LEVEL

Biomed VARs can assist:

- Offer a service where they accumulate our requirements and provide recommendations of bio medical devices to review.
- Service is per modality

Live your life well.

HALIFAX  
HEALTH

# Lets Talk about Biomed

How do we reduce the risk?

## Existing Devices:

- Vulnerability Scans will help determine what needs to be patched.
- Work with Biomed to determine type/location of devices
- Have your Biomed Department work with the vendors for them to patch the devices or to allow IT to patch the devices
- If they cannot be patched, bury the devices (Micro-Segmentation) behind the Internal Firewall prior to having them replaced with a non-vulnerable device

## Detection and Deception

Detection (SIEMS):

- User Behavior
- Network Penetration

Deception:

- Honey pots
- Domain Account Verification

## 3rd Party (Digital Traders) Assurance

Does anyone know what Fazio Mechanical Systems did?

“BAA is not enough for Healthcare”

“We are only as strong as our weakest link”

# Understanding our Digital Traders

- Mapping our existing digital traders
- Added controls so we are aware of new Digital Traders
- Quantify their Security Posture
- Auditing Them

# Understanding your Digital Traders

Vendor Risk Assessment to be completed before contract is approved and to be included as an addendum to the contract. All scores must be either completed or N/A entered if not applicable. If there is a compensating control, please add it as a comment to the criteria.

**NOTE:** This questionnaire is sent to the vendor with only columns B (their rating) and D (Risk items). Columns A and C will be added when the questionnaire is returned so a total risk score can be calculated.

**OPEN FORUM**

New limitations in the cafeteria will begin April 2 to address items that are included with the Medical Staff items vs. items that will need to be purchased out of pocket. A letter explaining the new limitations will be sent to the entire Medical Staff.

***ACTION TAKEN: Noted by the Committee.***

It was shared that Managed Care has begun addressing coding in medical offices which is resulting in additional denials of high level codes if documentation does not support the level.

***ACTION TAKEN: Noted by the Committee.***

It was shared that there are also denials for some diagnostic studies done in addition to the care provided.

***ACTION TAKEN:*** Noted by the Committee. The Committee would like to review the authorization requirements for these services.

Data has been requested in detail showing documentation compliance by physician. The reports presented to UMMR and MSRC will be included in the next meeting.

***ACTION TAKEN:*** A formal presentation of this data will be made at the next MEC meeting.
